Quality Vision

Hydrodec is a provider of products, technology and services to broader industry that are designed to enhance the economic and environmental sustainability of our customers. We believe that achieving the highest standard of quality in all our operations will ensure that,

- > Our customers will benefit from best value, reliable products and services,
- > Our employees will be proud to be part of our success, and
- > Our shareholders will benefit through enhanced value creation.

At Hydrodec we believe quality is a cultural imperative within all our activities requiring the commitment of our suppliers, management, employees, contractors and customers. Our goal is to ensure that at all levels Hydrodec has a commitment to quality products, technology and services and that all employees have ownership of our quality objectives and systems.

We are committed to operational excellence, environmental improvement, customer satisfaction and shareholder value. To achieve these commitments we apply a quality management system based on a continual improvement foundation in all aspects of our operations.

In support of our quality commitments we have implemented a quality management system consistent with ISO 9001 that ensures,

- > The establishment of clear goals and objectives.
- > Regular review and reporting against key performance indicators.
- > Maintenance of a continuous improvement culture.
- > Inclusion of all stakeholders
- > Compliance with all statutory and regulatory obligations.

We believe that a commitment to quality is a commitment to success for our company, our customers and our shareholders

Mark McNamara
